

# THE BEST IN ELECTRICAL NETWORK MONITORING

EXPERTISE | ASSISTANCE | PREVENTION

## THE PREVTECH DIFFERENCE

Alarms alone do not prevent fires. In addition to monitoring your network, we provide a team that assists you as soon as a risk is detected.

### REAL-TIME 24/7 MONITORING

Detects:

- Electrical problems such as faults and malfunctions
- Overheating of electrical panels
- Potential machinery breakdowns

### ASSISTANCE, SERVICE & EXPERTISE

PrevTech is the only electrical network monitoring solution that provides the assistance of a team of experts, available to help you prioritize and diagnose cases.

### QUICK AND EASY INSTALLATION

The PrevTech solution is easy to install by a certified electrician.

### THE MOST RECOGNIZED BY INSURERS

Adding the PrevTech solution to your protection plan can mean substantial discounts for you. Talk to your insurance professional!

## REAL PROBLEMS DETECTED BY PREVTECH

Damage to a cable caused by the vibration of a motor.

Sudden fault on a «TMR mixer» motor.

Damaged light connector.

Major fault in an electrical outlet, caused by moisture and corrosion.

## IT'S BETTER TO BE SAFE THAN SORRY

It's a saying that makes a lot of sense for farmers like you. Don't wait for a disaster to happen on your farm. Choose the best electrical network monitoring solution for your farm and rest easy knowing it comes with an experienced technical support team. Choose peace of mind, choose **THE PREVTECH DIFFERENCE.**
